ARMOREX FR® UNIFORMS

PROTECT WORKERS, COMPLY WITH SAFETY REGULATIONS, AND LIMIT LEGAL LIABILITIES.

Armorex FR Flame Resistant (FR) work garments are made by UniFirst in ISO 9001-certified facilities to ensure the highest quality. Made from the most innovative and proven arc-rated FR fabrics on the market, they meet international ASTM protective standards, have all the durability and comfort of "traditional" work apparel, and are UL® Classified to meet NFPA 2112. Armorex FR garments can also help you comply with NFPA 70E, CSA Z462, and OSHA. That's why Armorex FR is the smart choice for any business implementing a new arc-rated Flame Resistant Clothing (FRC) program or looking to expand an existing one.

ARMOREX FR® FABRIC OPTIONS

88/12 FR Cotton/Nylon combines safety and comfort with a rich feel that is soft to the touch. This arc-rated blend provides enhanced wear life and protective performance. NFPA 70E, NFPA 2112, and OSHA compliant.

CXP® ("Next Generation" Nomex®) from Westex by Milliken is an inherently Flame Resistant, arc-rated fabric made of 100% DuPont Nomex® IIIA. Incorporating Westex's proprietary Softouch Technology®, CXP boasts increased comfort, feel, and breathability; exhibits durable, longer-lasting color retention; and aids with NFPA 70E, NFPA 2112, and OSHA compliance.

Tecasafe® Plus from TenCate features enhanced soft-feel comfort and durability with a 48/37/15 modacryllic/lyocell/para-aramid blend that keeps wearers cooler in higher-heat work and weather environments. Coolderm Technology® and active moisture wicking also help keep workers dry and comfortable. Tecasafe Plus is arc-rated and allows for NFPA 70E, NFPA 2112, and OSHA compliance.

Nomex® IIIA from DuPont is an inherently Flame Resistant fabric designed with a blend of 93/5/2 Nomex®/Kevlar®/antistatic (static-dissipative) fibers to deliver superior heat, flame, and arc flash protection, while providing lightweight comfort. Nomex IIIA is an industry standard for FR protection and supports NFPA 70E, NFPA 2112, and OSHA compliance.

100% FR Cotton Denim is manufactured to mimic the fits, feel, and features of classic denim with the arc-rated protective properties of FR apparel. 100% cotton FR denim provides casual comfort with reliable protection for NFPA 70E, NFPA 2112, and OSHA compliance.

ATPV AND CAT RATINGS

ATPV Ratings: Arc Thermal Performance Value (ATPV), also known as "Arc Rating," is expressed in calories per centimeter squared and represents the thermal exposure from an electric arc that will create a second-degree burn. All Armorex FR clothing is labeled with ATPV values; the higher the number, the better the protection.

CAT Ratings: Protective Equipment Categories (CAT) describe the levels of protection that a garment provides. These categories range from CAT 1, which allows single-layer FR arc-rated shirts, pants or coveralls, up to CAT 4, which requires FR arc-rated shirt and pants, plus a double-layer switching coat and pants. CAT is used to determine the necessary arc rating of a garment worn for a given task.

FR GARMENT PERSONALIZATION:

To comply with FR safety guidelines, UniFirst recommends only standard size company and wearer name emblems on chest for personalization. Any other personalization options on FR garments, including those that utilize FR emblems and/or FR thread, are at the discretion and the responsibility of the employer and/or end user.

For more information, visit nfpa.org.

GEAR UP WITH HIGH VISIBILITY PROTECTION FROM TOUGH DUCK®

4XL–5XL ~~$75.99~~ $60.79

CHOOSE YOUR LEVEL OF PROTECTION

Visibility garment selection should be based on expected use settings and work activities being performed. These are designated as off-road (type O), or roadway and temporary traffic control (type R).

ANSI Type O, Class 1
Performance Class 1 offers the minimum amount of High Visibility materials to differentiate the wearer from non-complex work environments and is only appropriate for off-road environments.

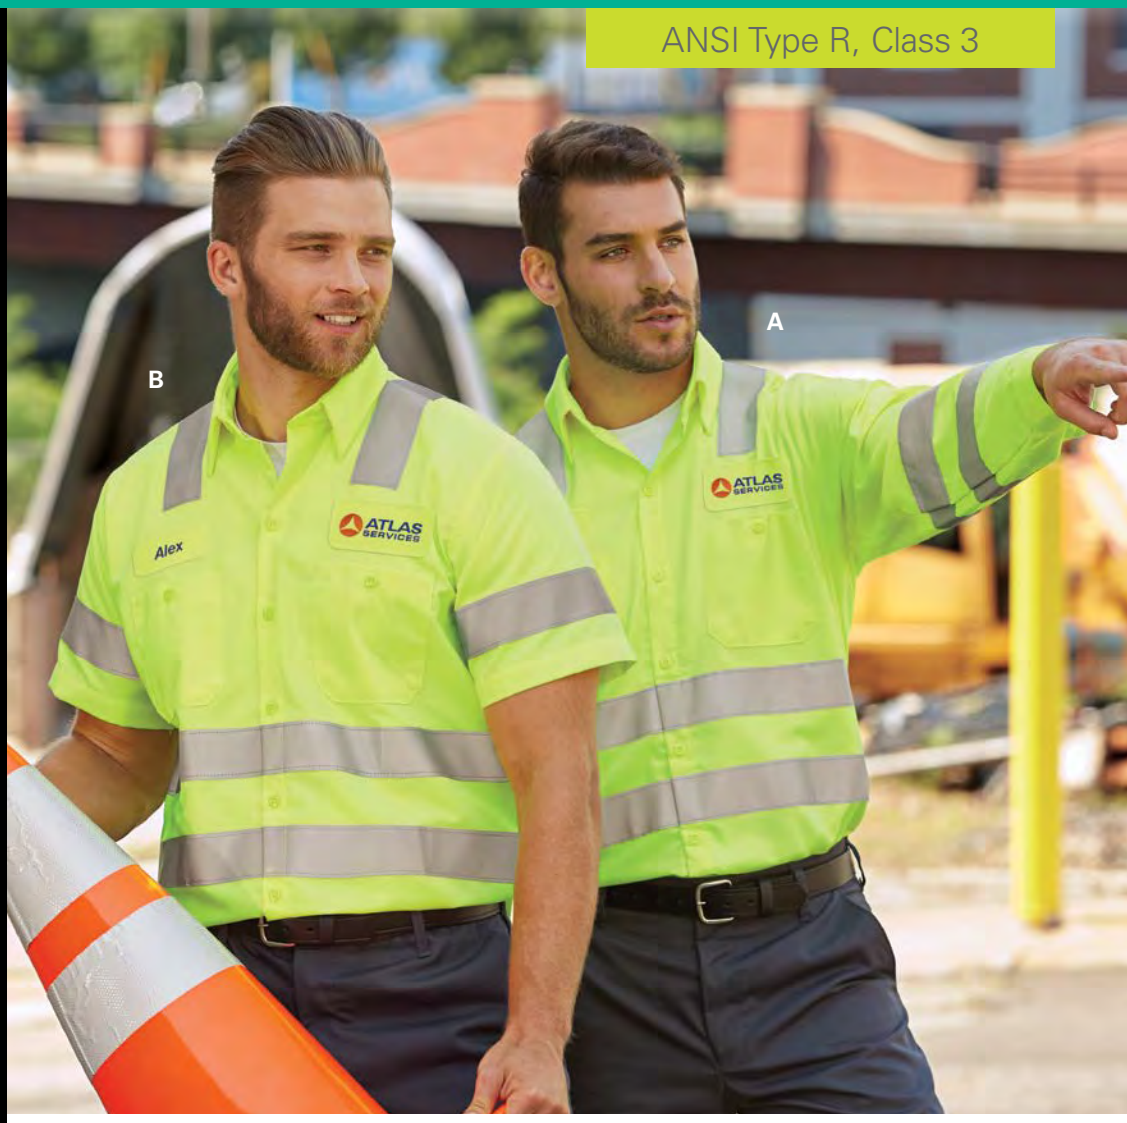
ANSI Type R, Class 2
Performance Class 2 is considered the minimum level of protection for workers exposed to roadway rights-of-way and temporary traffic control (TTC) zones. Garments will have additional amounts of High Visibility materials that allow for better definition of the human form.

ANSI Type R, Class 3
Performance Class 3 provides more visibility to the wearer in both complex backgrounds and through a full range of movement by the required placement of background, retroreflective, and combined performance materials on the sleeves and pant legs (if present). Garments have an even greater minimum level of High Visibility material the apparel must contain. A garment or vest without sleeves worn alone is NOT considered Class 3 protection.

ANSI Class E
High Visibility garments that do not qualify as meeting the requirements of the standard when worn alone, but when a Class E item is worn with a Class 2 or Class 3 garment, the overall classification of the ensemble is Class 3.

Enhanced Visibility
For workers who are working in lower-risk environments, but who can still benefit from the extra security of heightened visibility, particularly in low-light conditions. Enhanced Visibility garments are not ANSI rated.

Garment Personalization
To comply with safety guidelines, UniFirst recommends only standard size company and wearer name emblems on chest for ANSI-rated High Visibility garment personalization. Any other personalization options are at the discretion and the responsibility of the employer and/or end user.



STAND OUT WITH HIGH VISIBILITY PROTECTION

UniFirst
SPOTLITE*LX*®

The Spotlite *LX*® collection of visibility garments is manufactured by UniFirst in ISO 9001-certified facilities.

Spotlite *LX* High Visibility garments are ANSI compliant and feature our popular UniWeave® styling with moisture management, and retroreflective striping for 360° protection.

Spotlite *LX* Enhanced Visibility apparel is constructed with reflective fabric for those workers in lower-risk environments who can still benefit from heightened visibility, particularly in low-light conditions. Enhanced Visibility garments are not ANSI rated.

PERSONALIZATION AND ORDERING INFORMATION

Delivery Choices

(See Order Form page 68)

Regular Delivery: Your order will be shipped within the contiguous 48 states. Please refer to the chart on the order form to calculate the shipping charges.

Express Delivery: Available to most U.S. addresses. Add $20.00 to regular shipping and handling charges from the chart on the order form. Alaska and Hawaii are express delivery only. Add $25.00 to regular shipping and handling charges. You will receive your order one business day after we ship it.

Personalization Info

Call **888.786.4347** to speak with one of our customer service representatives for assistance with your personalization needs. We can use your business card, stationery, or electronic art files to create your design. Once you have approved your design, there is a first time setup fee of $79.99. Then you'll only be charged the application fees. Authorization and licensing fees for the use of copyrighted or trademarked designs are the responsibility of the orderer.

Exchanges and Returns

If you're not satisfied with a product, return it to us within 120 days of purchase and we'll refund your money or replace your purchase with something you like better. Please refer to your packing list or call our Customer Service department for assistance at **1.888.786.4347**.

Ordering is Easy!

We offer four convenient ways for you to place your order.

ORDER BY PHONE: **888.786.4347**
Our knowledgeable and friendly customer service staff is available to take your call Monday–Friday from 7a.m.–6p.m. CST.

ORDER ONLINE: **ShopUniFirst.com**
24 hours a day, 7 days a week. Fast. Easy. Secure.
