

Solutions for a cleaner, safer workplace.

CLEANING SOLUTIONS THAT ALWAYS DELIVER

UniFirst

Save 80% or more on commercial cleaning and disinfecting solutions

Is your business using ready-to-use facility cleaning solutions, concentrates, or “top-off” dispensing services?

If so, then it's time to switch to UniFirst's Cleaning Solution Dispensing Service for BIG savings on commonly used cleaning supplies for your facility. Compared to purchasing ready-to-use cleaning solutions, you could save 80% or more!

Precise concentrate dilution for cost savings

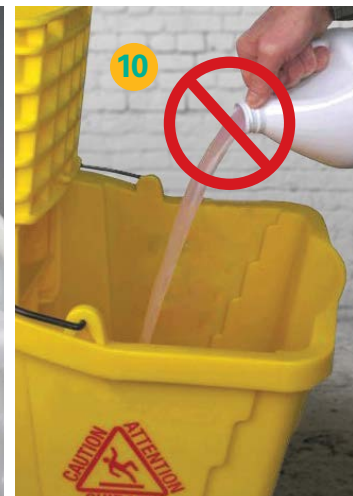

The secret to dramatic savings in cleaning products is proper usage. With ready-to-use cleaning supplies, you pay for 95% water and elaborate packaging. And, when you “free pour” concentrates to mix your own solutions, you use much more than needed. With the UniFirst dilution control system, you get perfectly diluted solutions at the touch of a button with no waste. Unlike competitive programs, each of our patented concentrate refills comes with a built-in metering tip for precise dilutions.

Pay only for what you use

Unlike traditional “top-off” services, you'll get reliable deliveries of concentrated refill cartridges **only** when you need them, and you **only** pay for what you receive.

Designed for simplicity and safety

Our system is safe and easy to operate. With a simple water hookup and our installation help, you'll be ready to mix perfectly diluted cleaning solutions. Plus, color and number coding of concentrated refill cartridges makes it easy to select the right cleaning solution for each application. Sealed refills and a closed delivery system reduces risks of accidental spills. English/Spanish/French product labels and a wall-mounted information guide make training a snap.

Dispensers

Flex-4 Four-Product Dispenser

Dispense up to four concentrates with ease. Features push-button dispensing, product-selector dial, and metering tips for trouble-free operation. Complete with product rack that fits four bottles.

88JG

Wall-Mount Dispenser

Accurately dilute and dispense two high-performance concentrates with the push of a button. Easily connect two units together to create a four-product dispenser.

99SR

Sink dilution station

Automatically dilutes and dispenses super-concentrated suds and sanitizer cleaning products into three-basin sinks from a compact, durable metal-housing design, with greater reliability than the traditional pour method.

Three-Basin Sink Dispenser

99TQ

Sanitizer

99TS 1 gal. bottle, yields 513 gal.

99TT 1 gal. bottle, yields 513 gal. (Canada)

Power Suds

99TR 1 gal. bottle, yields 257 gal.

Test Strips

Measures the concentration of quaternary sanitizers.

99TW Test strip kit; 15 ft./roll

Portable spray/foam guns

U-Fill Sprayer

Portable spraying gun goes anywhere and allows quick and easy cleaning using properly diluted and dispensed cleaning chemicals.

99TH

U-Fill Foamer

Portable foaming gun allows quick and easy cleaning of shower rooms with effective soap scum and mineral deposit removal.

99TA

Easy-Fill Gun

Portable gun allows you to prepare correctly diluted cleaning solutions from super concentrates. Fill mop buckets, auto scrubbers, bottles, and more.

99SS

Spray bottles

32 oz. Bottle

999B

Trigger Options

99TI Spray (blue)

99TJ Foam (white)

Color and number-coded labels also available.

Heavy-duty degreaser system

Remove grease and oil from a variety of surfaces with the Fury Degreaser, a non-corrosive heavy-duty degreaser. Perfect for use with automatic scrubbers. System features one-button dilution control and bag-in-box refill design for easy, economical use.

One-Button Degreaser Dilution Control System

99TK

Fury Degreaser

99TL 5 gal. bag-in-box, yields 85 gal.

99TP 55 gal. drum, yields 935 gal. (drop ship only)

99UE 275 gal. tote, yields 4,675 gal.

Rapid Fill Dispenser

99TV (for 55 gal. drum)

Drain maintainer

A multi-purpose biological digester/odor counteractant. Its blend of four different bacillus strains release enzymes to break down organic debris. Use as a drain maintainer and grease-trap additive.

99TU 5 gal.

One Shot single-dose cleaning solutions

Enjoy the benefits of perfectly diluted commercial cleaning products in a convenient, ready-to-use concept for small-business needs.

3 Attach sprayer to bottle and shake gently.

2 Insert cartridge into bottle neck.

1 Fill with water to fill-line.

Note: Overfilling will prevent cartridge from emptying completely.

One Shot Trigger

999A

32 oz. Bottle

999B

#2 Multi-Shine

One cartridge yields 1 qt. 40% savings vs. Windex® Original.

999C 6 cartridges/pack

#4 Foamy Mac

One cartridge yields 1 qt. 67% savings vs. Lime-A-Way®.

999D 6 cartridges/pack

#128 E-FECTicide
