Competitor C	0.1	0.1	0.1	0.2

## The overall performance champ? Great Impressions® by UniFirst!

An independent testing laboratory compared performance of the Great Impressions® mat, with exclusive “Hugger” back, to competitive mats offered by the rental service industry’s largest suppliers. All mats were 3’ X 5’ size and were evaluated under identical conditions. Test mats were placed securely on typical floor surfaces, their starting positions carefully marked, and movement measured after a prescribed number of brisk walking passes by individuals of representative adult weights. Measurements taken after 100, 200, 300, and 400 passes are recorded in the table above.

Note: Studies show that 85-90% of all mat placements are on hard-surface floors. The UniFirst “Hugger” backing has been specifically designed to perform in these applications.

All UniFirst manufactured floor mats are certified as “high traction” by the National Floor Safety Institute (NFSI).
