

UniFirst

Microfiber cleaning solutions for cleaner, greener, healthier facilities

Reduce water and chemical usage by up to 95%.

In tests published by the EPA, microfiber cleaning products were proven to remove up to 98% of bacteria and 93% of viruses from surfaces using only water (no chemicals).¹

If germs are evolving, shouldn't your cleaning solutions?

Microfiber mops, dusters, and wipers from UniFirst are revolutionizing the way hard surfaces are cleaned by providing a more effective alternative to traditional methods. Microfiber holds six times its weight in water, making it more absorbent than conventional cleaning products. Its positively charged fibers attract and hold dust like a magnet, allowing them to capture even the smallest of dust particles and germs, making it ideal for facility cleaning and infection control efforts. Remove dirt- and bacteria-laden cleaning products from your facility by using UniFirst's microfiber cleaning solutions.

UniFirst is a proud partner of the Healthy Schools Campaigns, and a member of the U.S. Green Building Council (USGBC) and the Canada Green Building Council (CaGBC).

The smart choice for your facility

Microfiber cleaning solutions from UniFirst help you present a professional appearance, fight dirt and germs, and lower your cleaning and maintenance costs. Our versatile microfiber cleaning products can also **reduce water and chemical usage by up to 95% while decreasing labor time**. And our microfiber hygienic laundering and disinfection services help eliminate solid waste by making mops, cleaning cloths, and dusters safe to reuse again and again. In all, using our microfiber cleaning options just make sense to improve effectiveness, increase productivity, and lower overall costs.

You'll always have what you need when you need it

With regularly scheduled service, all of your soiled microfiber cleaning products are picked up for hygienic laundering, with clean ones delivered in their place. We maintain your inventory and even replace any missing or worn out products.

What you get:

- Easier, more efficient cleaning
- No upfront investment
- Lower annual costs
- Infection and bacteria control
- Regularly scheduled pickup and delivery
- Professional hygienic laundering
- Inventory management and adjustments as needed
- Free training and education
- Products always on hand and available
